PROVIDING HOUSING FOR THE DARTMOUTH COMMUNITY FOR OVER 15 YEARS!

“While I was at DHMC completing my residency in Neurosurgery I lived at Coolidge House. The program worked just great. I was treated very well by the staff, and the place was well kept and comfortable. I really enjoyed it and figured I saved money to boot! Some of my colleagues stayed at Coolidge House and moved on. I stayed for over two years. Either way it was a good deal all around.”

IF YOUR APPLICATION IS APPROVED, PLEASE NOTE THE FOLLOWING RESTRICTIONS:

The Coolidge House offers single-occupancy rooms of various sizes. These are traditional guest rooms, complete with a full-size bed, dresser, desk & chair, and television. Smaller rooms have hanging space for clothing, while larger rooms have closets. There are also rooms which have an additional space for work and relaxing. Pricing is structured to coincide with the size of the room.

Coolidge House rooms can easily accommodate the guest's personal property needs which would make your long-term stay feel more "at home" (clothing, books, and similar personal items). However, guests agreeing to take occupancy also will conform to the space limitations of their living space. While the Hotel Coolidge can make exceptions for *approved* additions to the space (a small desk lamp, a small piece of furniture such as a night stand or bookcase, etc.), your additional items will need to be cleared by Hotel Management prior to move-in.

Guests with excessive property issues will be advised to find storage space outside the hotel. This will include, but is not limited to, storage boxes, furniture, electronics, fans, space heaters, kitchen supplies; or anything which might pose a problem with the weekly maintenance of the room or its electrical power capacity.
